

## Ideation Phase

### Define the Problem Statements

<b>Date:</b>	30 september 2023
<b>Team ID:</b>	Proj_227254_Team_1- 3414
<b>Project Name:</b>	Chatbot deployment with IBM Cloud Watson Assistant
<b>Maxim Marks:</b>	2 marks

#### Customer Problem Statement Template:

In the Define stage, you will organize the information you have gathered during the Empathize stage. You'll analyze your observations to define the core problems you and your team have identified up to this point. **Defining the problem and problem statement must be done in a human-centered manner.** For example, you should not define the problem as your own wish or need of the company: "We need to increase our food-product market share among young teenage girls by 5%." You should pitch the problem statement from your perception of the users' needs: "Teenage girls need to eat nutritious food in order to thrive, be healthy and grow."

### Problem Statement
